

, FCC Phone Tax

The Federal Communications Commission

Dear The Federal Communications Commission,

I do not want to pay more for my telephone service! I urge you to reject a flat fee proposal that would change how contributions are made to the Universal Service Fund. I am concerned that this proposal could make my current service unaffordable.

Under the flat fee proposal you are considering, people who make few long distance calls would pay the same as people or businesses that make many calls. In other words, low-volume and primarily residential customers would bear the same universal service fund burden as a high-volume residential or business customers. This is unfair!

I use my wireless phone for safety, security and convenience. I don't want to lose these benefits so that big businesses can pay less than their fair share. I urge you to reject the proposal to move the USF collection system to a flat-fee.

Keep the USF Fair!

Now, let's cut the shit.

Stop trying to SCREW the little people that pay YOUR salaries. I am already on the verge of LEAVING this godforsaken country, and the more you government idiots fuck with people like me, the closer I get to making the plans to give up my citizenship. I already pay a full 25% of my pay into various tax "schemes" that I will never see a return from, and it's a fucking joke. Social Security, Medicare, etc. And now THIS. Another continent, another country and another hemisphere seems better every day.

Sincerely,

John Ricke
